PROFESSIONAL SUMMARY

Dynamic Full-Stack Software Developer with extensive experience in CI/CD, building high-quality software solutions. Skilled in modern web technologies, Agile workflows, and cross-functional collaboration. Passionate about optimizing efficiency, improving scalability, and driving innovation.

EXPERIENCE

Back End Software Engineer, Falabella India, Bengaluru, India Apr 2023 - Aug 2023

- Integrated additional payment modes to the self-checkout app, boosting omni-channel retail performance by 25%.
- Enhanced API reliability via testing and cross-functional team collaboration for swift issue resolution.

Associate Engineer, Falabella India, Bengaluru, India Aug 2022 - Mar 2023

- Used Agile and TDD to manage sprints and deliver features on time via QA/UAT feedback.
- Ranked top 10 among 80+ teams in a global hackathon for an omni-channel retail solution.

Engineer Intern, Falabella India, Bengaluru, India Mar 2022 - Jul 2022

- Built a PWA in 4 months, optimizing performance with Webpack & Babel, cutting load times by 30%.
- Integrated 5+ APIs & GraphQL services, boosting app functionality and user engagement by 20%.

Software Development Intern, 5to9 Ventures Corp., Remote, USA Dec 2020 - Dec 2021

- Built full-stack solutions, integrating third-party APIs and using async JavaScript for API efficiency.
- Created 5+ wireframes to enhance UX and supported branding with logo design contributions.

PROJECTS

Service-Oriented Architecture for Scalable Web App | *Google Cloud, React.js, Node.js, MongoDB*

- Led front-end development, used OOD principles, developed microservices and optimized beauty product services by 30% through a modular architecture.

Restaurant Management System | *MongoDB, Express.js, Node.js, React.js*

- Developed a full-stack web application for restaurant management using MERN stack and applied software engineering best practices to streamline code readability.

IEEE GIT Website Contest | *HTML, CSS, JavaScript*

- Optimized the university IEEE chapter's website, reducing load times by 35% and enhancing navigation, and visual appeal using modern web technologies.

SKILLS

Javascript, TypeScript, JSON, Java, Python, HTML, CSS, SQL, HTTP, Node.js, React.js, Redux, Material-UI, REST, Bootstrap, GraphQL, Express.js, Fastify, Jest, Next.js, Webpack, TailwindCSS, MongoDB, PostgreSQL, Google Cloud Platform, Figma, Vercel, Heroku, Git, Github, Visual Studio Code, JIRA, Confluence, Slack, Quick-Learner, Communication, Problem-Solving, Debugging, Collaboration, Time-Management, Teamwork.

EDUCATION

Masters of Science, Computer Science, 4.0 GPA

Western University, London, Ontario

Sep 2023 - Dec 2024

Bachelors of Engineering, Computer Science Engineering, 3.9 GPA

KLS Gogte Institute of Technology, Karnataka, India

Aug 2018 - July 2022
